

**NMI**

NETWORK MONITOR INTELLIGENCE

Unified monitoring. Visión

A unified monitoring platform for infrastructure, networks, servers, services, VMware, alerts and licensing.

WHAT NMI CAN MONITOR

Infrastructure

Availability, CPU, memory, disk and critical services.

Networks

SNMP, interfaces, connectivity, Syslog and traffic visibility.

VMware

vCenter, ESXi, hosts, virtual machines and datastores.

Alerts

Thresholds, escalation, notifications and recovery.

WHY NMI

- Centralized visibility
- Timely alerting
- Unified operational console
- Support for enterprise environments
- Licensing portal
- Demo environment available

IDEAL FOR

Companies

MSPs

IT teams

Critical environments
